

## BECOMING A PRO 300

Each and every new Distributor should make it their goal to become a PRO 300 as soon as possible. Why?

- 1) You become Binary qualified only after you have attained this rank.
- 2) Your success in the Compensation Plan is built around everyone, from you to every new person becoming a PRO 300.
- 3) In order to qualify for the Director Match (Bronze Director), you will need at least 2 personally sponsored PRO 300's in your downline.

Since so much of the Compensation Plan is built around everyone attaining this rank, let's look at the different qualifications which are necessary for you to become one.

In order to qualify, you need:

- 1) To personally sponsor and have signed for Autoship at least 1 person on both your right side and your left side.
- 2) To have at least 300 points in any and each given week on both of your two sides.

The best way to make sure that you and others have attained this title, it is necessary that you to continue to sponsor new people and teach your downline members the same. One of the most important and necessary tools is the monthly Autoship. As you sponsor new people, make sure you encourage them to sign up for Autoship. If you do not, you will have to call each person, every month and remind them to place their monthly order. This is very time consuming and will not allow you to build effectively.

Example:
